# FROG STREET'S EARLY CHILDHOOD PROGRAMS ARE BUILT ON FOUR KEY CORNERSTONES:

**Have you ever tried to adapt or modify curriculum that is either too difficult or not challenging enough for the children in your care?**

Frog Street offers specific curriculum for every age and every stage of development from birth to age 5. We understand that as children grow, their needs change. Frog Street programs offer developmental and learning continuums that allow children to build on previously mastered skills to more readily achieve new skills in a seamless and continuous way.

**Are you looking for ways to increase your CLASS® scores?**

Classrooms using Frog Street programs, which are designed around the latest early brain development research, have reported an increase in CLASS instructional support scores in the first year of program implementation.

**Do you search for ways to help your children achieve the social competence and emotional stability you know they need to be successful learners?**

Frog Street early childhood programs place a special emphasis on social and emotional development through the implementation of Dr. Becky Bailey's Conscious Discipline®. Children build trust, form healthy attachments, and develop impulse control. As children practice daily rituals that invite them to unite, calm, connect, and commit, they are laying the foundation for invaluable life skills.

## FROG STREET'S VISION
